

Our factory based in HengQuan Industrial Park in DongGuan City. We have three workshops for Metal lures/ Softbaits and Hardbaits. We started to produce lures since 2014, our main customers are from Europe and the States.

FUDAKIN

FishFun Tec provide both OEM and ODM services, with our designing team, we can basically make all kinds of lures for most of the target fish all over the world. We have a good understanding in Bass and Pike softbait designing. For OEM project we straightly follow our customers' need, prototyping ASAP then we can see if any improvement will be suggested.

FUDAKIN

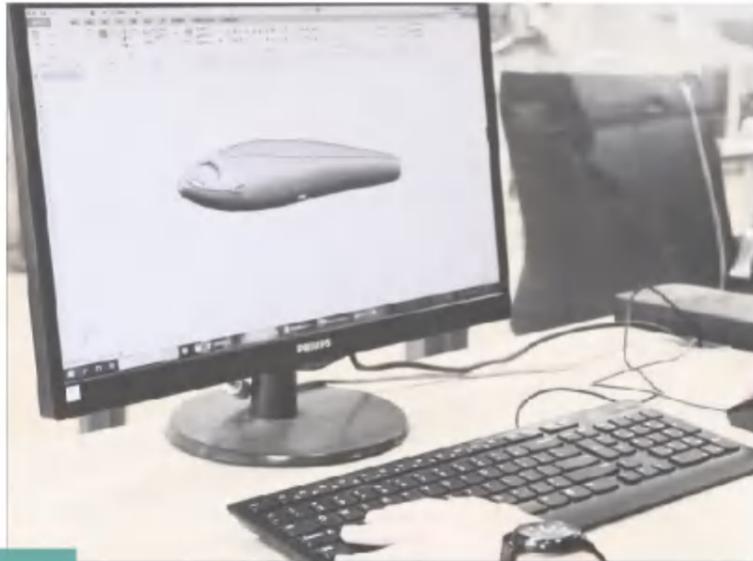

The capacity of our softbait workshop is about 300,000 pieces per month. We use only German and Taiwanese materials, it is more life like and smell nothing at all, with different hardness we can make from half inch ice fishing jigs to about 20 inches over size pike softies. And it gives the softbait a really great stability even you have stored them in the bag for over 1 year in the storage.

Our Moulds are made from our own moulding workshop who's making only top quality softbait moulds for top quality brands.

We deeply know that the **quality** is the key to stand in the market. We do check every lure we make, and test them with our pros.

THE FISHING LURE FACTORY BEHIND TOP

DESIGN

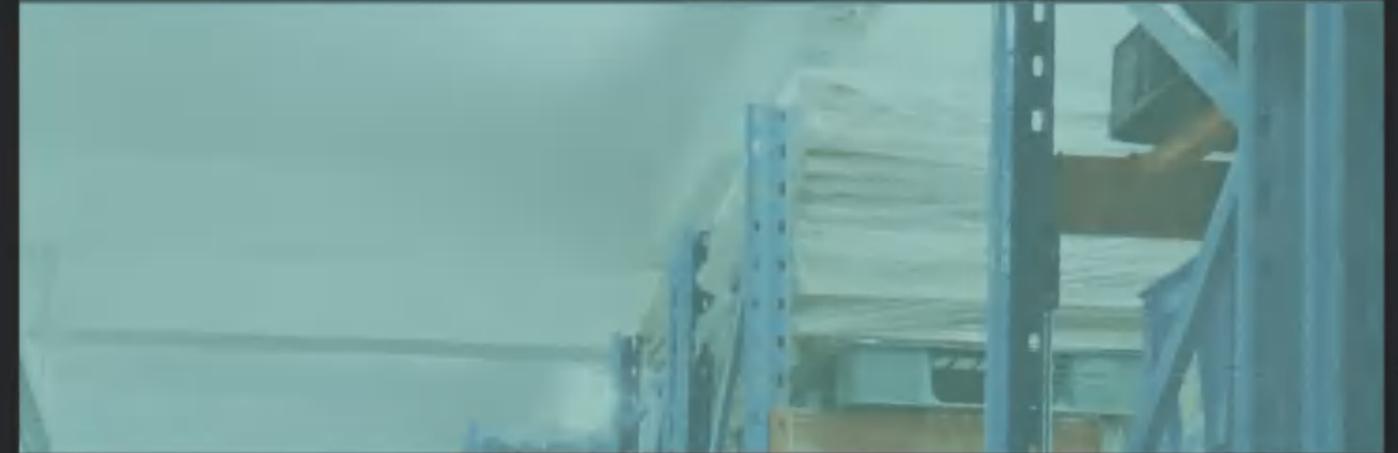

Completing bulk volume orders of high-grade fishing lures during peak season is possible thanks to our keen eye for bait designs. Focusing on the North American market in 2001 with creating high-end outdoor sports products, we eventually found our niche market of fishing lures by 2007.

What makes unique from other lure manufacturers is our practical design backed by a strong R&D department, engineering design team, and two foreign designers. Each bait is expertly designed to have an attractive aesthetic while having the best possible performance of grabbing the attention of targeted fishes.

What makes unique from other lure manufacturers is our practical design backed by a strong R&D department, engineering design team, and two foreign designers. Each bait is expertly designed to have an attractive aesthetic while having the best possible performance of grabbing the attention of targeted fishes.

FishFun fishhead Jigheads

Fishhead Jigheads are always working well in the Complicated condition, a steady retrieve will show the magic of the rig. Japanese quality color paint will fit all kinds of water condition.

The Most Widely Used Fishing Lure

SLIM JERK

Highlight 1

The small submerged pencil is more suitable for shore fishing and root fishing.

It mimics the escape and swimming action of fish in the natural state when twitching and evenly harvesting.

小さな水中ペンシルは、ショアフィッシングやルートフィッシングに適しています。自然な状態でベイトフィッシュがピクピクと均等に収穫するときの脱出と水泳のアクションを模倣します。

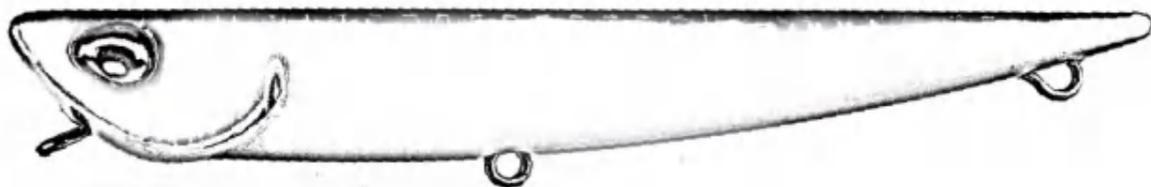

Highlight 2

Diversified coating can be suitable for various water conditions.

さまざまな絵画がさまざまな水の状態に適している可能性があります。

The design of the lure body is smooth, so that the lure can reach the best flight distance when throwing and it can produce tremor in the process of falling in the water.

ルアー本体のデザインは滑らかで、人工ルアーは投げるときに最適な飛行距離に到達でき、水中に落下するとき振動を発生させることができます。

Highlight 4

The larger size can cope with the tearing force of large fish when they are hooked, and the larger size can effectively attract large target fish species.

FK60 JERKBAIT

FJ50 JERKBAIT

Highlight 1

The FF MINNOW is a proven finesse jerkbait that produces a deadly, panicked darting action, and also offers amazing castability despite its small size.

FF MINNOWは、パニックに陥った致命的なダーツアクションを生み出す実績のあるフィネスジャークベイトであり、サイズが小さいにもかかわらず驚くべきキャストビリティを提供します。

Highlight 2

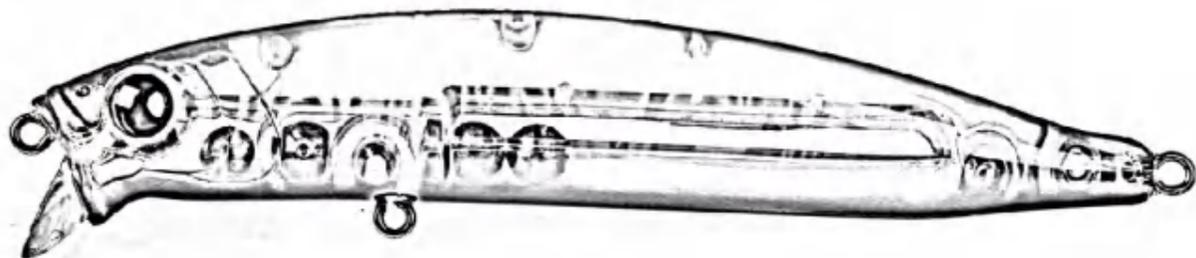

Its small yet beefy body allows it to mimic shad and a variety of baitfish, and like all FF baits it features amazing lifelike detailing.

小さいながらも頑丈なボディは、シャッドやさまざまなベイトフィッシュを模倣することができ、すべてのFFベイトと同様に、驚くほどリアルなディテールが特徴です。

Highlight 3

A weight transfer system allows you to cast the FF Jerkbait farther than similar-sized options, with 3D eyes and incredible detailing only adding to its appeal.

重量移動システムを使用すると、FF Jerkbaitを同様のサイズのオプションよりも遠くにキャストでき、3Dの目と信じられないほどのディテールが魅力を増すだけです。

Highlight 4

The larger size can cope with the tearing force of large fish when they are hooked, and the larger size can effectively attract large target fish species.

FJ45 JERKBAIT

Highlight 1

Featuring an elongated bill, the FJ45 Jerkbait quickly dives to deep water and produces an erratic side-to-side darting action with bright flashes that generates violent strikes from predatory fish.

細長いくちばしの特徴のFJ45ジャークベイトは、すぐに深海に飛び込み、捕食性の魚から激しいストライキを発生させる明るいフラッシュを伴う不規則な左右のダートアクションを生み出します。

Highlight 2

When you're dealing with finicky, highly pressured fish, the FJ45 Jerkbait delivers a subtle presentation that will help entice even the most wary bass into striking.

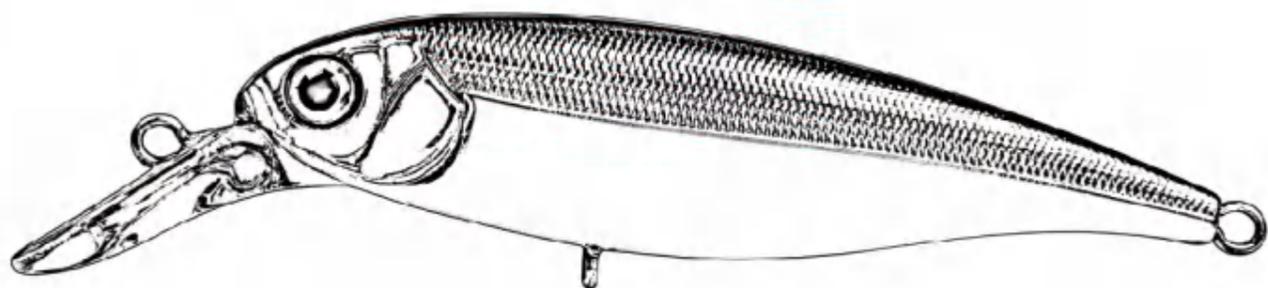

FJ45 Jerkbaitは、気難しい、高圧の魚を扱うときに、最も警戒心の強いベースでさえも印象的なものに誘うのに役立つ微妙なプレゼンテーションを提供します。

Highlight 3

Offered in a wide range of colors, there is a Staysee that is right for any environment.

幅広い色で提供され、あらゆる環境に適したステイシーがあります。

SLIM JERK PROP

Highlight 1

Fitted with a churning prop blade on the front and the back, the FF Spybait provides a mixture of flash and turbulence that causes suspended fish to react.

前面と背面に攪拌プロペラブレードを装備したFFスパイベイトは、フラッシュと乱気流の混合物を提供し、吊り下げられた魚を反応させます。

Highlight 2

Diversified coating can be suitable for various water conditions.

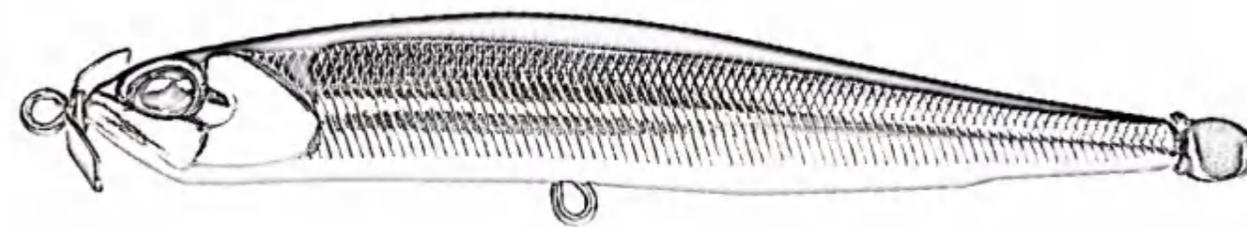

多様なコーティングは、さまざまな水の条件に適しています。

Highlight 3

On the inside, the FF Spybait is fitted with a precise weighing system, which allows for long-distance casts and a perfectly balanced action.

FF Spybaitの内側には、長距離のキャストと完璧にバランスの取れたアクションを可能にする正確な計量システムが装備されています。

SLIM JERK PROP

Highlight 1

The small shallow diving Minnow is suitable for various environment, has strong versatility, and is suitable for most of target fish.

小型の浅いダイビングミノーは、さまざまな環境に適しており、汎用性が高く、ほとんどの対象魚に適しています。

Highlight 2

Small in size, but big on action, the FF BAIT size is perfect for times when fish are keyed-in on bite-sized forage.

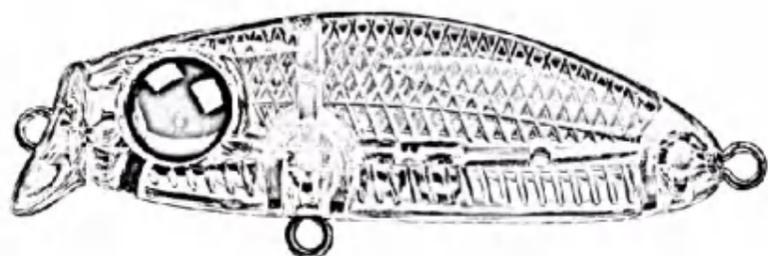

サイズは小さいですが、アクションが大きいFF BAITサイズは、一口サイズの餌に魚をキーインする場合に最適です。

Highlight 3

Steel balls inside make a great rattling noise and vibration to attract predator fish and help with casting distance.

内部の鋼球は、大きなガタガタという音と振動を発生させ、捕食魚を引き付け、飛距離を伸ばすのに役立ちます。

FRY SLIM 130

Highlight 1

Covered in lifelike details as well, the Fry Slim 130 features 3D eyes, molded 3D gill plates, and a textured scale finish that absolutely comes to life in the water.

リアルなディテールで覆われたFrySlim 130は、3Dアイ、成形された3Dギルプレート、水中で絶対に生き生きとした質感のあるスケール仕上げを備えています。

Highlight 2

Fry Slim 130 equipped with three razor-sharp Treble Hooks and brilliant color schemes, the 3D molded gill plates and 3D eyes as well for unparalleled attraction.

3つのかみそりのように鋭いトレブルフックと鮮やかな配色、3D成形されたギルプレートと3Dアイを備えたFry Slim 130は、比類のない魅力を提供します。

Highlight 3

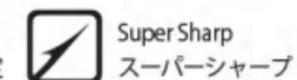

The Fry Slim 130 tapered tail design and sharp bill also work in conjunction to produce an erratic slashing action when twitched just like a wounded baitfish.

The Fry Slim 130のテーパータールデザインと鋭いビルは、負傷したベイトフィッシュのようにひねったときに、不規則な斬撃アクションを生み出すためにも連携して機能します。

TR50 SHAD

Highlight 1

Featuring an arched back and a streamlined body shape, TR50 Shad is built to produce a panicked darting action with small twitches to resemble an injured baitfish, which stimulates fish to strike out of pure instinct.

アーチ型のバックと流線型のボディシェイプが特徴のTR50Shadは、怪我をしたベイトフィッシュに似た小さなひねりを加えたパニックダーツアクションを生み出すように作られています。

Highlight 2

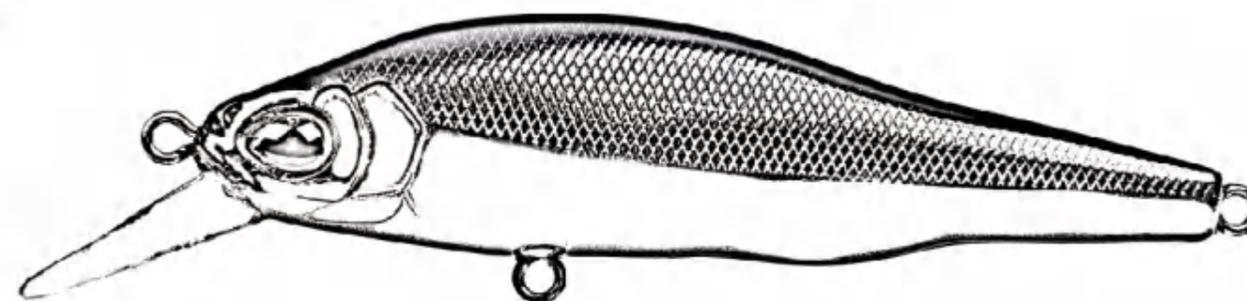

These lures have great action and appearance with life-like 3D eyes and colors. With premium strong high carbon cut-point treble hooks.

これらのルアーは、リアルな3Dの目と色で素晴らしいアクションと外観を持っています。プレミアムストロングハイカーボンカットポイントトレブルフック付き。

Highlight 3
